FAIR TRADE ORGANIC COFFEE

AFTER DARK (DARK)

This is one of our darkest roasts. It's very nice with rich desserts. We also recommend that you drink it after the sun goes down. That's why we called it After Dark. Clever?

CHARLIE'S SECRET* (DARK)

This is a tightly guarded recipe that only one person has knowledge of. You will detect the cedar and ground pepper aroma, a smoky flavour with high acidity. Good balance across palate. Only Charlie knows the secret.

COLOMBIAN* (MEDIUM)

Grassy, wet earth aroma, which carries into the flavour along with notes of garden peas. It has a chocolaty aftertaste with low acidity and light body. A longtime favourite with many a connoisseur.

ETHIOPIAN (MEDIUM)

Many can't pronounce the name properly but this bean is outstanding. Berry like in the aroma that carries into the flavour along with slight citrus notes. Low acidity with a medium to light body. Ethiopia is where the first coffee bean was cultivated so it must be good.

GUATEMALAN (MEDIUM)

Toffee and brown sugar in the aroma and a light syrup and honey flavour. We also find some citrus notes. It is very low in acidity and has a Medium body. Did someone say el café?

MEXICAN (MEDIUM)

Aromas of Mexican toast and wild rice turning into flavours of honey and thick syrup. Buttery and caramel in the aftertaste with high acidity and Medium body. Imagine that swirling around in your mouth. Ole!

MIDNIGHT OBSESSION (DARK)

We all have one or two but this obsession is one of burnt pine and ash in the aroma with a pleasant, smoky taste. Low in acidity and Medium in body. Think about having a slice of chocolate cheesecake on the side.

NICARAGUAN (MEDIUM)

Sweet caramel in the aroma carrying over into the flavour with dark berry and herbs. Grassy aftertaste with Medium acidity and Medium body. We have been known to double roast this one to give it a unique flavour profile.

PERU CAFÉ FEMENINO (MEDIUM)

Malty and bready in the smell. Caramel and vanilla in the flavour with subtle berry. Medium acidity and Medium body. Grown in the northern highlands, close to the Andes. That's super high up.

SLEEPY MONKS OWN* (MEDIUM)

Fruity aroma, leading into a tangy apple flavour with subtle hints of vanilla. Another one of our own recipes of 3 origin coffees. This is our original Fair Trade roast and our most popular. It is low acidity and high in body. So if you're feeling sleepy...

SUMATRA (DARK)

Grown on an island in western Indonesia, affectionately referred to as Frank Sumatra around Baden. This one has an aroma of toasted oats and wine. Smokey and spicy in the flavour. High acidity and Medium body. Doo bee doo be doo...exchanging glances.

SIGNATURE COFFEE

COSTA RICAN (MEDIUM)

From the home of eco-tourism comes a bean that will make you want to jungle hike all day long. Expertly roasted for your enjoyment. Take a trip to Central America without leaving your kitchen.

KENYA (MEDIUM)

The rich, volcanic soil of Eastern Africa gives this coffee its distinct flavour. It has an aroma of cinnamon and spice and flavours of rich chocolate and butter. This excellent coffee is low in acidity and has a high body and bursting with flavour.

PEAKS (MEDIUM)

We named this roast after the glacier made 'kames' just outside of town. They reach 434 meters in height and contrary to popular belief we do not grow our coffee here. Aroma of bread and flavours of honey and butter. Caramel in the aftertaste with low acidity and a Medium body. A great way to re-live a summer trip to Baden.

CASTLE RESERVE (MEDIUM)

Named after Castle Kilbride right here in Baden. Wild Rice in the aroma carrying into flavours of garden peas and an earthy tone. Fruity aftertaste with Medium body.

EVERYTHING BUT THE KITCHEN SINK (MULTIPLE)

For coffee enthusiast wanting a pleasant surprise. Never the same cup twice, explore multiple roast levels, with various coffees blended from over 25 countries.

FESTIVAL ROAST (DARK)

This was first exclusively roasted for a customer of ours but soon proved too good to keep it a secret. Toasted bread and wine in the aroma. Charred wood and smoky flavour. Medium Body. Popular with the 'Inn' crowd.

GRIND 27 (MEDIUM)

A small town legend from St. Jacobs influenced this coffee meant to celebrate those cold and early mornings in the arena. Citrus notes with hints of fruit and chocolate.

SANDHILLS (MEDIUM)

We tip our hat to another Baden landmark in this tribute recipe. A distinct aroma of nuts with flavours of spices and cloves. Low in body and low in acidity. We think we did the famous Sandhills justice.

SIXTH AVE. (MEDIUM)

Our roast master grew up on Sixth Avenue so he created this special roast recipe. Wet rice and berry in the aroma, caramel and roasted nuts in the flavour. It has a very low acidity and Medium body. Memories light the corners of his mind.

TANGO (MEDIUM)

It takes two to tango but only one guy to roast it. Light berry and unripe fruit in the aroma. Honey, herbs and garden peas in the flavour. Vanillas in the aftertaste with low acidity and Medium body. Have a cup with your dance partner.

PERUVIAN (MEDIUM)

Aroma of wild rice, bread and garden vegetables rolling into the flavour of garden peas and butter. Grainy aftertaste with Medium acidity and Medium body.
